Xanna Divine

GAME DEV, PROGRAMMER

XannaDivine@Gmail.com
XannasNook.github.io

SKILLS

= Some experience

Languages

C++ | C# | C | Python | Assembly | Lua | Rust | HTML | GLSL | Java

Frameworks

STL | ImGui | OpenGL | Ren'py | Nlohmann JSON | Linux

Engines

Unity | C++ Custom | UE4/UE5

Management Tools

Git | Github | Jira | Code Reviews | Agile Story Writing | Doxygen

EDUCATION

DigiPen Institute of Technology
BS in Computer Science in Game Design
2024-Current

Gained experience working with industry-level game code and working in large programming teams. Finished 1 game so far and currently have a second in production.

COURSES

- CS-280 - Data Structures & Algorithms
- DES-212 - System Design Methods
- CS-180 - Operating Systems I
- CS-230 - Intro to Game Engine Architecture

EXPERIENCE

Lavner Education
June 2025 - Aug. 2025 STEM Instructor

- Taught kids, aged 6-14, different STEM topics, such as Python, Robotics, and Game Design.
- Tailored lessons to diverse learning styles, ensuring all students grasped complex STEM concepts.
- Cultivated a fun, inclusive environment that boosted confidence and creativity in young learners.
- Mentored students through project-based learning.

ACADEMIC PROJECTS

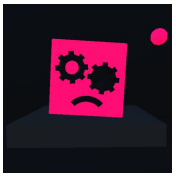
Fish Fear Me
Aug. 2025 - Current Tech Lead

- Wrote an ECS-based custom engine
- Created all the art used
- Ran tech meetings and performed code reviews
- Managed pull requests on GitHub

Attempting Fate
Aug. 2024 - May 2025 Gameplay Programmer

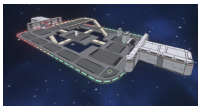
- Wrote the engine architecture in C
- Created the script parsing system, based off of Ren'py
- Wrote the text display system, as well as the dynamic text log and text box systems

PROFFESIONAL PROJECTS



Boss Battle
Aug. 2024 - May 2025 Gameplay Programmer

- The second programmer to work on this project, eventually taking the sole programmer role
- Wrote movement mechanics and netcode
- Designed the UI and spectator experience



CTF
Nov. 2023 - Dec. 2023 Tech Lead

- Restored an old VRChat minigame for the online community "Automated Souls"
- Wrote the game logic, including netcode and combat
